## Introduction

The Practice Placement Quality Assurance [website](#) supports the quality assurance of practice placements in the Yorkshire and Humber region for all healthcare students from the ten HEIs in the area.

The PPQA database needs to be setup to reflect the relationships between the HEIs, student programs, professions, SP organisations and practice placements. It is also important to setup SP, HEI and educational lead users\* to access the information which is relevant to them.

- The larger SP organisations have nominated PPQA quality lead(s) and database administrator(s). [Click here](#)
- The Advanced Training Practices (ATPs) have nominated PPQA quality lead(s) and database administrator(s). [Click here](#)
- Private, independent and voluntary organisations (PIVO) as well as NHS organisations outside the region are supported by the local HEI [Click here](#).
- The HEIs have nominated professional contacts and database administrators. [Click here](#).

[Click here](#) for the index by organisation.

**The PPQA administrators can also be contacted for queries about the mentor/practice educator register.**

\*Educational Lead users create and edit the practice placement profiles and audit the practice placements in conjunction with the HEI staff.
